

Instructional Technology Training Classes for Faculty & Staff

Date	Time	Location	Class	Instructor	Offered To:
FALL 2008 SEMESTER					
Wednesday October 1, 2008	3:00-4:00	Myers 149	Introduction to MediaSite MediaSite allows instructors to record and post classroom presentations online. A great tool for instructors who teach distance learning classes or students who have to review class presentations or interviews	<i>Mike Willis,</i> Director of Multimedia	Staff & Faculty
Tuesday October 7, 2008	3:00-4:00	Myers 151	Introduction to MS PowerPoint 2007 Learn how to create a basic PowerPoint presentation.	<i>Mike Willis,</i> Director of Multimedia	Staff & Faculty
Wednesday, October 22, 2008	3:00-4:00	Myers 149	Podcasting Did you know that almost 65% of UD students own a portable MP3 player, and nearly 70% have expressed an interest in downloading class content via podcasting. Come learn about the University's new podcasting service and how it can help you deliver classes, special events, and other content in a new way.	<i>Mike Willis,</i> Director of Multimedia	Staff & Faculty
Thursday October 30, 2008	3:00-4:00	Tech Center 111	Introduction to SynchronEyes SynchronEyes is an application for controlling PCs in a computer lab. Use it to lock up student computers, monitor student activity, or project your computer screen on all student monitors. You can also remote control into a student PC to demonstrate an application or assist with a problem.	<i>Mike Willis,</i> Director of Multimedia	Staff & Faculty
Tuesday November 4, 2008	3:00-4:00	Tech Center 111	Introduction to Turning Point TurningPoint is an application which allows instructors to poll their students in class, and see the tallied results immediately. Instructors create survey questions in PowerPoint, and students use a small remote control to respond to the questions. TurningPoint can be used to assess whether your students understand a concept or need more review.	<i>Mike Willis,</i> Director of Multimedia	Staff & Faculty
