

Note: The required hours of flight and ground instruction for each flight course, along with the course cost based on those hours, is indicated below. Based on historical data, some students require more than the required hours of training to be proficient and able to pass their FAA check ride for a particular course.

Heliconter Private Pilot (FLI 131)

Rotor Wing Flight Cost Estimates for 2022-2023

The Flight Center recently completed a review of the pilot ratings required to qualify for graduation. The expected cost in today's dollars to qualify for graduation is approximately \$155,363*. Students and their families should allocate a minimum of \$38,841/year* for flight training on a four-year flying program.
