

“Thank you! Without you believing in students like me, I wouldn’t have been able to do it. You helped me get through some tough times!”

What is your major?

I majored in exercise science, and minored in business.

What are you involved in?

During my time here, I was on the football team.

What/Who makes UD special?

The people are what makes UD special. Having a community around that wants the best for you and having your professors in the stands cheering you on is so special. It shows how badly they want to see you do well here.

Any plans for after graduation?

I am currently interviewing for different jobs, so undetermined. I do feel well prepared thanks to UD and my professors.
