

“Everything invested into this University helps it grow into the wonderful place that it is today. From all the students here at UD, thank you for making our school a home away from home!”

What is your major?

I am majoring in Elementary Education.

What are you involved in?

I was on the women’s volleyball team and volunteered at many Dubuque Community School District events!

What makes UD special?

The people! Everyone here is so kind and helpful. There is also so much diversity of campus which allows you to grow and learn from your professors or classmates.

Any plans for after graduation?

I plan on becoming a substitute teacher for the Dubuque School District until the end of the school year. I then plan to apply for elementary teaching jobs in the area in hopes of having my own classroom in the fall.
