

NAVAEH FAISON (C'28)

My name is Navaeh Faison, and I am a freshman at UD majoring in criminal justice. I'm from a small town and chose UD because it offers a supportive, diverse community with endless opportunities to get involved. I'm currently working in both the admission and advancement office, which has allowed me to connect with many members of the UD family, creating meaningful relationships.

The support UD receives has made a huge impact on my life. I am the first in my family to attend college, and UD has helped make my dream of earning a degree come true, despite the financial challenges that come with it. I'm grateful for the scholarships and support that have made it possible for me to be here. For those who invest, thank you for making our dreams a reality. Your support not only helps students like me, but also shows the younger generation that anything is possible with hard work and dedication!
