

HUNTER PRESTON (C'25)

My name is Hunter Preston, and I am a senior from Dubuque majoring in accounting, business administration, and marketing. During my time at UD, I have been fortunate enough to stay involved in many ways, including serving as a captain of the football team and an executive board member for both the Accounting Club and the Investment Club. I enjoy spending time with my friends and family, and being apart of the UD community has made my college experience incredibly rewarding.

The support and resources provided by UD have had a significant impact on my success. From state-of-the-art facilities to impactful programs, the infrastructure at UD sets students up for success in unique ways. I am incredibly grateful for those who invest in this university, as their belief in the students is evident. What makes UD truly special, though, are the people. The tight-knit campus atmosphere, where you're always seeing friends, is something I'll always cherish. After graduation, I'm excited to begin my career as a sales executive in the Transportation Department at Cottingham & Butler, thanks to the skills and experiences I've gained at UD!
