

What was your major?

I graduated in 2023 with a politics and business degree. I also just received my master in management: organizational diversity and inclusion leadership.

What were you involved in?

Basketball, Student-Athlete Advisory Committee Board, Mediation, and Moot Court teams, UD Investment Club, and I tutored in the Academic Success Center.

What makes UD special?

UD offers students so many opportunities including networking and advice on the future. There is no place in the world quite like UD, and I am thankful to call this place my home.

What are your plans after graduation?

I am attending Southern Methodist University Dedman School of Law in Dallas, Texas! Then I want to practice law and hold public office.

“Thank you! I cannot think of a more deserving community for an investment than this school and the people that make it so special!”
