Updated August 2012

Click on the Wifi icon in the upper right corner of your screen and select “UD_WiFi”.

Enter your network username and password. Check the box for “Remember this network”. Click Join.

Open your internet browser. The first webpage you will see will look like this:

The screenshot shows the University of Dubuque Campus Network Registration page. The header includes the University of Dubuque logo and the text "CAMPUS NETWORK REGISTRATION" with a laptop icon. The main content area is titled "WELCOME" and "DOWNLOAD". The "WELCOME" section explains that users must login and download a Client Security Agent (CSA) application to connect to the network. The "DOWNLOAD" section instructs users to enter their username, password, and device type, then click the "Download" button. The form fields are: User Name (jchrome), Password (masked with dots), and Device Type (a dropdown menu with options: Please select one, Please select one, Wired Laptop, Wireless Laptop, Desktop). A "Download" button and a laptop icon with a question mark are also visible.

University of Dubuque

CAMPUS NETWORK REGISTRATION

WELCOME

To connect to the University of Dubuque network, you are required to login and download a Client Security Agent (CSA) application to your PC, which will verify that your system meets the campus network security policies.

This application is a proactive tool to help us ensure each PC attaching to our network is safe and secure. After running the required tests, the application will automatically uninstall itself from your PC.

DOWNLOAD

Please enter your user name, password, and select your device type. Then click the button to download / run the Client Security Agent(CSA) on your machine.

User Name: jchrome

Password:

Device Type: Please select one

- Please select one
- Wired Laptop
- Wireless Laptop
- Desktop

Download

Enter your network username and password, select which kind of device you are trying to connect from the drop-down menu, and then click on the "Download" button. You will be prompted to save a file which will scan your computer. Once you save the file, open it. Once the file has run, restart your computer. After restarting your computer, you should be able to get online and browse websites normally. If you have any problems, you can contact the IT Help Desk at 563-589-3737.
